Review Unit-Level Outcomes
Annually review outcomes to ensure alignment to mission and services

Map Outcomes
Map core functions and programming to outcomes

Data-Informed Action
Take actions to address identified areas for improvement

Assessment Cycle
Collaborate with colleagues throughout the process and consult DASA Assessment staff for support

Gather Data
Identify processes for data collection, design instruments if needed

Interpret Findings
Determine what your results say about the unit's ability to meet its outcomes

Analyze Data
Analyze data at a level that aids in identification of strengths and areas for improvement
